Information

Equipe Training Limited was established in 2008 by three of the UK's leading senior managers in the fields of land drilling and geotechnics.

Equipe provides a professional, comprehensive and independent training and assessment service covering geotechnics, laboratory testing and drilling which is delivered either from its offices on The Upton Estate, or from selected facilities throughout the UK and Ireland.

Equipe has partnered with the UK's leading manufacturers, suppliers and a number of independent consultants to ensure that the courses are delivered by trainers with real experience and knowledge and the course content contains up to date content.
